TO: Haulers of National Forwarding Co., Inc. & Affiliates

FROM: Steve Caruso, Operations Manager

SUBJECT: NFC Tonnage Available for Pickup

NON-PEAK DISCOUNTS AS LOW AS 55%

National Forwarding Co., Inc. has an open tonnage for haulers that are familiar with servicing DP3 shipments. Simply go to: www.nationalforwarding.com, click on the green box marked tonnage. The list of available tonnage will populate and update every 5 minutes, adding and removing shipments. **These shipments already have origin agents assigned; we are simply looking for haulers.**

If you're interested in hauling a shipment on the tonnage list, please call NFC Operations at **800-722-9144** and give us your agency's name and the B/L number of the shipment(s) you'd like to haul. We recommend calling over emailing as the shipment will be assigned right then on the phone. For after-hours tonnage requests, please email nfctonnage@nationalforwarding.com.

Below are a few quick tips for navigating the tonnage list:

- Here is what the tonnage list looks like. There are currently over 200 shipments available to haul (see red circle).
- Clicking the arrows in front of the field heading sorts that field in ascending or descending order (see yellow circle).
